ACHIEVEMENTS

- ❖ 5 Star Badge in **Problem Solving** HackerRank .
- ❖ **700+** Problems solved on **Leetcode** .
- ❖ 5 Star Badge in **C++ HackerRank** .
- ❖ 3 Star Badge in **30 Days** of Code HackerRank.

EDUCATION

B.Sc. Computer Science
Duration - 2019 – 2023
Gauri shankar trust Science College
Malakapur, Amravati University
Percentage – 70%

PROJECTS

1. Cloned Food Delivery App (FoodBuddy Online).

User Authentication: Implemented a robust user authentication system utilizing Firebase Authentication, ensuring secure user registration, login.
Real-Time Database: Utilized Firebase Firestore as the NoSQL database, employing document-based data storage for scalability and real-time synchronization. Firestore Firestore to store and retrieve user profiles, restaurant details, menu items, and order.
Responsive UI: Designed a responsive and engaging user interface using Flutter's widget-based approach, optimizing app performance across various devices and screen sizes.
TechStack Used: **Flutter, Firebase**

2. Developed an Flight ticket Booking app UI.

Enhanced User Experience: The app provides a seamless and intuitive user experience. Users can easily browse, select, and book tickets for flights. The clean and responsive design ensures that users can access it from various devices and screen sizes.
Navigation Pages: User can navigate between multiple pages with the help of bottom Navigation Bar such as search page, home page, profile page, etc.
Tech Used: **Flutter, Firebase, OpenAI api key, cloud firestore for storage.**

WORK EXPERIENCE

Let'sGrowMore Internship 2022

Built a E-Commerce Shopping Web Application With
Front End - HTML & CSS & Javascript
Backend - ReactJs
